AN EASY WAY TO CLEAN THE SINK.

Every sink should be provided with a three-cornered sieve made by covering a metal frame with very fine netting. When water is thrown into the sink it should be turned into this sieve, which retains every particle of solid matter, preventing its getting into the pipes and causing trouble. Each morning the sink should be carefully cleaned. Dissolve a teaspoonful of Gold Dust washing powder in hot water, scrub every portion of the sink with the Gold Dust solution, pour some of the hot suds down the pipe to loosen the grease that may have gathered in the trap.

GREEN CUT BONE AND MEAT.

The Cold Weather Poultry Food. Fowls have a natural craving for animal food, especially when the weather is cold. All kinds of grains are good, but to produce lots of eggs an occasional ration of green cut bone and meat is absolutely essential. This product can be obtained of Carroll S. Page, Hyde Park, Vt. He will ship a 200-pound barrel to any address on receipt of \$3.00, and at this price pay the freight to any railroad station in New England or the middle states. Money may be sent at his risk by registered letter, postal money order, check or express money order. When writing him, mention this paper.
